Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-4 rejected under 35 U.S.C. 102 (b) as being anticipated by Hasson (4,944,741). Hasson disclose a laparoscopic device as claimed comprising a flexible arms (16,18) having arcuate shapes (fig. 2) and blunt ends, first and second handles (58, 56), solid rod (72), an internally threaded ring housing (56), locking screws (70, 150), a tubular rod (22), a central hollow knob (64). In regard to claim 4, Hasson discloses the laparoscopic device being used to perform a laparoscopic procedure (col. 3, lines 1-44), such procedure would inherently carry out all the steps as claimed.

Response to Arguments

3. Applicant's arguments filed 7/20/04 have been fully considered but they are not persuasive. Applicant indicates the substantial structural differences in the Hasson invention as compared to the present invention (page 1 and two of the response filed 7/20/04). However, applicants fail to point out the substantially structural differences of the claimed invention and the prior art. The claimed invention covers the features of the prior art. Therefore, in order to overcome the prior art. The claimed invention needs to be rewritten in a form that excludes the features of the prior art. At this point, the

introductory statement of intended use and all other functional statements of the claims have been carefully considered but are deemed not to impose any structural limitations on the claims distinguishable over the Hasson's device which is capable of being used as claimed if one desires to do so.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
